

The image displays a series of technical drawing exercises. Each row consists of an isometric view of a 3D object on the left and its corresponding orthographic projections (front, top, and side views) on the right. All drawings are performed on a 5x5 grid. The objects are:

- Row 1:** A cube with a diagonal cut through its top and bottom faces.
- Row 2:** A rectangular prism with a slanted cut through its top and bottom faces.
- Row 3:** A rectangular prism with a diagonal cut through its top and bottom faces.
- Row 4:** A rectangular prism with a slanted cut through its top and bottom faces.
